THE DAILY CLARION.

Saturday:::: December 15, 1866

BRIGHAM'S "PECULIAR INSTITUTION." Brigham Young said, in a late discourse at Salt Lake: The last time I was in the city of Lowell, Mass., there were fourteen thousand more females than males in that one city. That is many years ago. They live and die in a single state, and are forgotten. Have they filled the measure of their creation, and accomplished the design of heaven in bringing them upon earth? No; they have not. Two thousand God-fearing men should go there and take to themselves seven wives apiece

Forney's Press says of the inventor of Confederate rams:

The only person living who understands the construction of rebel torpedo rams is now in this city, to offer all information concerning them to our Government. These rams were the most terrible engines of war ever constructed.

WHERE'S THE NIGGER !- A Radical sheet sheet, the Tamaqua Journal, says: "We have had a Republican victory-now,

where's the 'nigger?' Thereupon the Bellefonte Watchman goes at the following rapid rate:

"Go to your store, and you get from eighteen to twenty-five cents worth of nigger in every yard of muslin that you buy; from ten to fifteen cents worth of nigger in every yard of calico your wife and children use; from six to eight dollars worth of nigger in each barrel of flour that your family consumes; twenty-five cents worth of nigger in every pound of coffee you purchase; from eight to twelve cents worth of nigger in every pound of sugar you buy to sweeten it; you'll find a small bit of nigger in your box of matches, and considerable of nigger in your plug of tobacco. You can eat nothing, wear nothing, see nothing, taste nothing, or have nothing, that is not more or less affected by the miserable niggerism that has controlled the

If anything will ruin the nation it is the extravagance of our women and the dishonesty of our politicians. Under Jackson's adto excite great concern throughout the land. Then modesty was the most esteemed ornament with which our mothers could deck themselves. Now a thief is made a foreign minister, like Cameron, or a senator, like Harlan. The woman who gains notoriety by the display of a hundred thousand dollars | worth of jewels is the leader of society. Woe to that nation whose rulers are without integrity, and whose mothers prefer to decorate the body than improve the mind.—St. Louis Times.

Washington."

FASSMANN'S PATENT IRON TIES!!

For Cotton Bales. UNITED STATES PATENT, APRIL, 1865.

IN FASSMAN'S PATENT IRON TIES, the hoop for the button is punched with two holes at one end and fifteen at the other. The band has only to be drawn tight, the holes in the two ends to be brought together,—the two bole end on top—and the button inserted. One button will answer, out it is better to insert two. With the Buckle Tie, one end of the hoop is fastened to one section of the Buckle, the other end is inserted in the other section, and simply shoved through it under the other end as long as there is

any slack. A bite on the buckle holds it securely to The hoops are painted to prevent rust, and cut in lengths of 10, 103 and 1 feet. Ten feet are most gen erally used, but 101 and 11 are sometimes required for large bales. The buckles are fastened to the hoops, the buttons will be put up in small boxes. The Weight is About 10 Pounds to the Bale of Cotton.

The advantages of iron over rope for baling cotton are now universally acknowledged. It holds the bale in a much smaller compass; is applied and fastened with as much facility, both in the country pressing and the re-compressing at the sea ports; ssens immensely the risk from fire; is stronger, and its strength is not impaired by time and exposure as is that of rope. This last advantage has seed strikingly manifested during the war. Thoubands of bales of Cotton have been lost by the rotting and breaking of Rope which could have been preserved if Iron hoops had been used. In addition to this, it can be furnished cheaper than Rope. The derangement of labor in the hemp growing States has reduced the supply of hemp to such an extent as to cause prices to rule unprecedently high: in-deed a sufficiency for baling a moderate cotton crop, cannot be relied on at any price. I have arranged for the importation of a large quantity of the best English Iron, and have made arrangements with Messrs, Chambers & Latting for the sale and delivery of my Ties.

The undersigned, Fire Warden and Fire Inspec-tor of the New Orleans Insurance Companies, are of opinion that the Iron Tie affords greater protection against loss in case of fire than the old style of baling J. YOUENES, Fire Warden, JOHN ADAMS, Fire Inspector I concur in the above

ALFRED BELANGER, Ex-Chief Engineer, Fire Department.

SHIP REFUGE. NEW ORLEANS, July 7, 1859. H. Fassmann, Esq , Orleans Cotion Press: Sir: In January last I received from your Press 1089 bales of cotton, of which about 1000 were recompressed and bound with your new "Iron Tie." I can safely affirm that the cotton so bound was recrived in better order than it generally comes from the Presses, that it stowed better, and enabled the ship to carry more than on any previous voyage The cotton when discharged from the ship in Liverpool, was in better order than the rope bound cetton, it is highly preferable for a ground tier, as dampness from the ballast has no effect upon it, for it is well known by practical men that dampness will rot the rope bound. I can confidently recommend

your "Iron Tie," as I took this lot for an experiment and carefully watched it both in loading and dis-I am Sir, Yours Respectfully, JOHN HOWARD, Master.

CRANE, BREED & CO., NEW ORLEANS, LA., MANUFATURERS OF Hearses and Metalic Burial Cases and

Caskets. WOULD call the attention of undertakers, and the public, to their large variety of Hearses of the most approved patterns, and of the finest finish-unrivaled for elegance, utility

and durability. We are constantly improving the style and construction of our Metallic Burial Cases. Our "New Plain Case," patented December 12, 1865, combines all the most recent and valuable improvements, and is more complete than any Burial case ever before invented. Our Metallic Burial Casket, in its simplicity of design, and its freedom from all associations of grief, is unsurpassed. It is almost entirely covered by the best polished plate glass. Its finish is that of the finest rosewood. The Ornamental Casket, with its heavy and elaboratelywrought emblematical ornaments, their bright silver contrasting with the dark polished ground work, is of striking and appropriate

elegance. Over wooden coffins, these Burial Cases and Cakets possess many important advantages. They protect from water, vermin, and other intrusion, answering for generations every necessary purpose of a vault. Removal from the original place of burial-should it ever be desired-can easily be accomplished. Bodies can be preserved for days or weeks, awaiting the arrival of absent friends. Removal to any part of the globe, at any season of the year, is entirely practicable The surest safeguard is effected against contagious diseases.

Directions accompany every Burial Case and Casket, in reference to closing, and should be strictly followed. Address, CRANE, BREED & CO.,
